| LT-Extrusion1/ALU/3.3M | Anodised to 10 Microns | 3.3 metres       | Surface mounting via clips |

### DESCRIPTION

LT-Extrusion-1 is a low-profile extruded aluminium channel designed for discrete mounting of slimline linear LED systems. Produced in an anodised finish, this channel is available in 3.3 metre lengths but can be easily cut to suit any custom length.

Two clip-in diffusers are available for LT-Extrusion-1:

- Clear polycarbonate for added PCB protection
- Opal polycarbonate for diffusion of light output

Mounting clips are also available for easy installation on to any rigid surface.

### LINEAR LED LIGHTING

LT-Extrusion-1 is suitable for the installation of linear LED systems up to 13mm wide and 4mm tall.
